POETICAL.

[For the Register. CONTENTMENT.

BY ROWENS A. BLANKENSHIP.

The levely flowers in beauty bloom, And droop and fade and die, With sweet content they calm resign

Without a mean or sigh. No hand of art has e'er portrayed, Perfection sweet as they, And yet they shed their sweet perfume, And withered die away.

The little wren that gaily flits From flower, to bush and tree Seeks but its peaceful rural life And pipes its wood-song free-In innocence and purity, The gentle forest dove Seeks but her sybran woodland home And her ows true mate to love.

The feathered tribe were never made To sigh for honor bright. Their dainty wings were never made To scale fame's mountains bright. The gaudy butter-fly that floats

Upon the summer's air, Gambols contented 'mong the flowers, And fades among them there.

All things in nature seems content Save the poor human race, Who, longing, build their castles fair, On fancies canvassed space; And maily seek to rush abead, And contribute a name, To live in burning letters on, The glowing parts of fame.

Yes, the ambitious spirit pants Within the poor frail frame, Seeking to break its chains and sour To the fair pinacle of fame, And there to snatch the purple wreath Of glory bright and fair And twine it round the fading brow, And bid it blossom there.

How oft contentment is cast down, And friendship overleaped, To sink in but obscurity. Oblivion dark and deep. Oh teach as pure contentments charm And may I never know, Ambitions baunting, longing pangs, For honor's radiant glow. Mercerville, O., 1862.

Our wharf bas exhibited an unusual ! Pat Molony, better knewn by the degree of activity for several days part respectively. A large transport of father Molony, getarning from in consequence of the heavy shipments Dec. 16.—The following additional parname of father Molony, getarning from of forage to this depot for the use of the ticulars of the battle of Prairie Grove transport of the battle of Prairie Grove that the gate by the fine weather lasts. A hay stack of 2000 tons is now in process of constinotion on our Public Square, the magniax and I've been sthrivin' to do tule of which would surprise one not far wou or the matter of ten minutes post, miliar with such things. The low stage tion of water operates against shippers, who, by the terms of their contract, are bound to deliver it on the levee. Should it continue in the Kanawha, serious difficulty will arise in foraging the trains now with the army, and may render these s- artillery. Marmaduke is on the north eary to bring them to the forage. The foresight and energy of Captain Moul- outposts are within twenty pulse of Versolved taken' possession without foresight and energy of Captain Moultanders yer lave—the thafe of the too, has so far as practicable, guarled against seriety. His efforts in this because the foreight have been more effectually and never let pass an opportunity mules now in the corrals at this place for the results of the table. Once the table of the corrals at this place for the table of the correct of the table of the correct of the corre mules now in the corrals at this place for terest is on the tapis. General Herron months past, instead of shipping 1000 had only 3,500 men in the battle, the re-head from Cincinnati into the Kanawha mainder of his failing to come up on ac-Velley, by order of General Cox, at a count of excessive facing acgreat expense for freight. These mules Major Hubbard, 1st Maj those now here.

We are making no charges against any one, but only looking at it in a business light, entirely beyond any military stand point. The Government bag s right to be protected in such cases, and should not be made to suffer from brickerings between Quartermasters.

It is due to the rank and file to say, that no better soldiers are found any where in the Union army. A large proportion of the field and company officers merit favorable mention. But for fear of offense, we - [Gallipolis Jour-

head, chest and ablomen, is found in the nakedness of the arms and legs, which prevents a fair distribution of the blood.

A young lady has just asked me what she can do for her very thin arms. She will close thin, here goes the her what she supposed would make mus close grow? Exercise, she replied.—
Cartstaly, thut exercise makes home them through the thin lace covering, dit on the officers and men of the Army and found them freezing sold. I asked of the Frontier.

The value of exercise depends upon the temperature of the muscles. A cold genasium is unprofitable. Its temperature should be between sixty and sev-Pat threw the bundle over his shoul enty or the limbs should be warmly der, and Bildy struck three blows to the clothed. I know that our servant girls and blacksmiths, by constant and vigerous exercise have largeerms, in spite of What smells so square Pat. Sure it's their nakedness. And if young ladies takin me breath away wid the power of will labor as hard from morning till night as do these useful classes, they may have more dress upon the arms and legs.

"Well, you look around lere, and graded age."

Well, you look around lere, and graded working the fall age. This does not look as though the yell; and if I see him, I'll do the same."

So they separated, and one went cau.

Biddy.

Ock, murther! Biddy Molony, what he was days. This does not look as though the yell and if I see him, I'll do the same."

Biddy.

Ock, murther! Biddy Molony, what he was days. This does not look as though the hey we done? Ye ve went and mistook the latter, has the former. Put your hand under your dress and upon your.

This war is describing just as easy to raise cotting in the perfect heal he depends upon perfect heal h sense of fulness; or the chest has too ties as will make the derivation permanent.

Again I say, the extremities require should dress their erms and legs with germents which fit them. The absurdi-Legislature, that he betrayed the friends of a new State, and that he had failed to that recipients of salt under the arrange spread skirts, I will not discuss.

Do you ask why the legs and arms may

A distinguished physician of Paris delearned that many persons, amongst closed just before his death, "I believe a little troublesome, but that is no busi-whom were the widows of Confederate that during the twenty-six years I have ness of ours. Gallipolis being 4 miles besoldiers, have been made to pay a fee of practiced my profession in this city, low the mouth of Kanawha, in daily comtwenty-five cents to obtain ten cents twenty thousand children have been munication by telegraph and steambeat worth of salt, (two pounds.) propose to borne to the cameteries a sacrifice to the with the Army, might seem to one not devo to thre and a half hours each day, about custom of naked arms." C. Warren say, above the mouth of the said Kanawhs. ple, to relieve all persons who may be "Boston sacrifices five hundred babies without direct communication by either, necessitated to accept of the privilege afforded by the Council aforesaid, from Those little arms should have thick knit, which we don't comprehend, and therewoolen, warm sleeves extending from fore merely state facts, leaving others to the shoulder to the hand. Dio Lewis, draw their own conclusion - Galipolis

FROM THE FRONTIER ARMY.

The official report pu's the loss in killed and wounded, in Gen. Herron's command, at 843; in Gen. Blunt's, at 152 total, 995. The latest accounts inor are themobel fars to 2,700 killed and wounded, and nearly 6,000 by deser-

Tairty-commissioned officers of Herron's command were killed or wounded. According to latest information by spies, Hindman is on the south side of the Ar-kausas river with all of his infantry and

Major Hubbard, 1st Mo. Cavalry who have now to be foraged with hay at \$22, was a prisoner in the bases of the ene-and even at eighty cents, in addition to my on the day of the battle counted twenty two regimen's of infantry, ten of carbley and twenty-two pieces of artillery on the retreat.

Hindman yesterday had the impudence by a flag of truce, to request the privi-lege to send a topographical engineer to make a drawing of the battlefield of Prairie Grove and its approaches. Gen. Blunt replied he would grant the request when he was allowed to sand an engineer to make a survey of Van Buren and Its surroundings.

Sr. Lawis, Dec. 17.—General Heron telegraphs General Cartis that the victory of Prairie Grove was much more A Word About Dress.
One of the gravest mistakes in our rabels were killed and buried by us there. frees is the very thin covering of our The wounned were found scattered arms and I gs. No physiologist can through the woods for miles in the rear doubt that the extremities require as much covering as the body. A fruitful carried during the action, and left when source of disease, of congestion in the they retreated! Many subsequently died for want of attention.

Our cavalry pursued the retreating rebels closely, driving them beyond Van Buren.

The position and condition of our forces are excellent. The campaign has says she is a hamed of them. I felt of been most brilliant, reflecting great cre-

Is a recent speech in New Orleans, would for many years a resident of the Crescent City, pointed out the falsity of the slave holders pretence that white men could not work in the South. He had hundreds of white men working in his department, during four of the hottest months of an unprecedentedly hot Summer, on the burning levee, and in the ditches, and draining canals in the rear of the city, up to their waist in mud and water, and yet they continued well and healthy-and had no more sickness than others who were not so much exposed. He saw no reason why the poor man-might not cultivate a few acres, raise his as fine arms, but even then it is doubtful bale or two of cotton, or a few hogs-heads if they would get rid of their congestions of augar, as easily as the farmers of the ie the head, lungs and stomech, without North and West their corn and potatoes. It was certainly just us easy to raise cot-ton or sugar, and not more unhealthy.

This war is descroying the fallacy cat.
